FEE AGREEMENT

In order to stay in business and meet expenses Barkley & Associates must limit the number of managed care clients they can see. Managed Care companies usually pay significantly less (30-50%) than our full fee.

I understand that I have been given a choice to go to another agency, provider or perhaps even another provider within Barkley & Associates who might have a managed care slot open. I have chosen not to take advantage of this option.

It is my understanding that I am contracting to be a full-fee client at Barkley & Associates. I understand even though I have insurance, I choose not to utilize my insurance benefits and the insurance will not be processed by Barkley & Associates.
